

Precision Ag Expo

June 7, 2006

Texas A & M University Agricultural Research & Extension Center
Corpus Christi, Texas

- *Would you like to learn how Precision Ag is increasing farmer profits and/or reducing risks?*
- *Want to talk with the experts as well as leading farmers using Precision Ag?*
- *Would you like to see Precision Ag equipment in the field?*

If so, mark your calendar and plan now to attend the Precision Ag Expo on June 7th.

Expo Agenda

Guidance Systems

Information on how guidance systems save time and expenses by industry experts and from farmers using the systems.

Utilizing Yield Mapping Data

Updates from one of the leading experts in this area -Dr. David Waits, President & CEO of SST Development Group, Inc.

Maximizing Soil Variables

Information on using mapping, Electrical Conductivity and Remote Sensing to reduce cost and risk will be presented by Dr. Subbarao Yarlagadda, National Agronomist for Helena Chemical Co.

Variable Rate Technology

Kenneth Hood, a large cotton farmer and owner of InTime, Inc., will discuss how he saves input cost and maximizes profits by using variable rates including insecticides and harvest aid products.

Role of Crop Consultants in Precision Ag

A leading crop consultant explains his company's role in Precision Ag and how it works for his growers.

"Putting All the Information Together To Increase Profits"

A Texas farmer that is experienced with Precision Ag will tie together all the information on how to use this technology to make more money and/or reduce risk.

Field Demonstrations

"Hands-on" demonstrations and discussions in the field to view:

- **Guidance Systems Demos**
- **Soil Electrical Conductivity Systems**
- **Variable Rate Technology**
- **Working with Aerial Photography**
- **WeedSeeker® Demo**
- **Drip Irrigation Demo**
